The Story

La Capranera, located in Campania, focuses on making wine from sustainably-farmed indigenous grape varieties. La Capranera, which translates to "black goat" in Italian, is named for the breed of goats - cilentana nera - that graze in the national park near where the grapes for these wines are grown. The wines are made from three ancient, local grape varieties: Fiano, Falanghina, and Aglianico and are harvested from vineyards located in the Capaccio-Paestum area of Campania in the middle of the Cilento National Park.
