THE STORY

La Raia is a story made up of people and their love for the Gavi region, founded on shared values: their passion for wine and biodynamic cultivation, their respect for the landscape while preserving its original biodiversity, and art as an instrument of deep connection between man and nature.

Run by the Rossi Cairo family since 2002, La Raia is a project in progress, where you can meet and share thoughts and emotions with those who believe in the same values of regeneration and authenticity.
