AGING: Stainless Steel on lees for 6 mos, followed by bottle

aging

ANNUAL PRODUCTION: 30,000 bottles

#### THE STORY

The history of Cottanera began in 1962 with Francesco
Cambria when he purchased 100 hectares (247 acres) of
vineyards and hazelnut groves near his birthplace in
Randazzo, at the foot at Mt. Etna. Francesco grew hazelnuts
and initially sold his grapes to the local cooperative. In the
late 1980's, Francesco's son Gugliemo decided to build a
winery to produce his own wine instead of selling the grapes.
Gugliemo was joined by his brother Enzo in the new venture
and thus, in the mid-90's the first wines labeled as
"Cottanera" were born. The name Cottanera comes from an
ancient village positioned alongside the family vineyards,
along the banks of the river Alcantara. After the death of
Guglielmo, Cottanera is now guided Enzo and Gugliemo's
children Mariangela, Francesco and Emanuele.
