THE STORY

Chris Nickolopoulos and Elijah Pfister work with a handful of California's most respected grape growers and wineries selecting the finest rows, plots, barrels, and lots from each vintage.

PHILOSOPHY: We carefully select the best producers from each great wine producing region resulting in a great portfolio. We think 'less is more', and believe in minimal intervention.

BIOGRAPHY: This is a story of two friends who started a wine company. Chris Nickolopoulos and Elijah Pfister have known each other for over decade. As Chris was in the wine trade and Elijah's beloved uncle owned one of largest wine and liquor retailers in North America, the conversations inevitably gravitated towards wine.
