### THE STORY

La Baronía de Turís is a centenary winery, a pioneer in the province of Valencia. The cooperative was founded in 1920, when 70 funder partners contributed 51 hectares of vineyard and 200.000 kilos of grapes. Today we are more than 700 winegrowing partners who contribute around 500 hectares of vineyards and produce some 4,5 million kilos of grapes. We develop the whole process in our winery: growing, harvesting, crushing, fermentation and maceration, ageing and bottling.
