THE STORY

Priest Ranch is a historic Napa Valley property established in 1869 by James Joshua Priest, a Gold Rush prospector. In 2004 we combined the historic Priest Ranch and Elder Valley properties to create the Somerston Estate. Today the 1,615 acre estate has 215 acres of producing vineyards from 15 distinct areas with a total of 180 different blocks. We have explored the diversity of the property by blending multiple blocks into every wine produced. These multi-block wines showcase impressive quality and represent the property at the highest level. Each vineyard is uniquely tended based on the grape varietal.
