THE STORY

Rive Della Chiesa winery is synonymous with genuineness, authenticity, freshness of flavour and simplicity. In Selva del Montello, in the province of Treviso, this winery is run by the Gasparetto brothers Luigi and Michele who deal with all phases of the wine production. Thanks to a strong family tradition and a specialized technical training they guarantee a high quality product so that the harvest can express its characteristics at its best. The first vineyard purchased by the Gasparetto family is located nearby an old country church ""Rive Della Chiesa", a name discovered through ancient documents of the cadasters. The Gasparetto family decided to name the winery « Rive Della Chiesa », as it is natural for every great wine to take the original name of the land where it grows.
