THE STORY

Buli is a love story. It is about a son connecting to his maternal homeland and the place where his parents met and were wed. His parents met in WW2, it was love at first sight, an American GI and a woman from the town of Torre e Castello in Sienna. The war had savaged her town. As an excuse to see her he provided food and materials for her entire town. He would drive hundreds of miles to see her on his leave. He stayed after V-E day to marry her and bring her home with him. Robert Buli visited his relatives there as a child and was determined to live there one day. He achieved his dream, purchased a winery and he brings to us the wines from this great place and the romantic story of his parents love.
