

Alkoomi Riesling Black Label

THE FACTS

COUNTRY: Australia
REGION: Western Australia
APPELLATION: Frankland River

THE STORY

All wines are estate grown in this cool climate region with a focus on Riesling and Cabernet Sauvignon. The ethos of Alkoomi's vineyard management has always been to favor quality over quantity, and to manage the property in an environmentally sustainable manner. All vines are pruned by hand and no herbicides or pesticides are in the vineyard. Any water that is used comes from rain and is collected in dams and tanks.

BIOGRAPHY: Sandy's parents planted the first vines in 1971, producing wine five years later. Today, Sandy, Rod, their daughters, and winemaker Marelize Russouw work in and oversee all facets of the vineyard and winery.
