THE STORY

Dorino Livon, is one of the most successful and recognized Friulan winemakers. His story has its roots in the family's passion and traditions: a true love for the homeland, Friuli or better the Collio and the Colli Orientali del Friuli, the far north-eastern corner of Italy and gateway to Eastern Europe. Dorino Livon acquired his first vineyards on the Collio hills in 1964, and slowly, plot by plot he expanded his property establishing the Azienda Agricola Livon estate. The winery is now under the direction of the third generation of the family.
