

Obalo Crianza Rioja

THE FACTS

COUNTRY: Spain

REGION: Rioja

APPELLATION: Rioja

THE STORY

Bodegas Obalo was born in the heart of the Sonsierra of Rioja, in a building whose location and characteristics represent a declaration of intentions. From our winery, located in the town of Álbalos, it is possible to see, on the one hand, a sea of

vineyards from which the great Rioja wines have historically been made and, on the other hand, the Sierra Cantabria, which serves as our shelter and that conditions the climate of the area. From these two elements we build our project. We work to offer our vision of this historic land through a selection of old vineyards, with different heights, orientations and soil compositions.
