THE STORY

Christoph Wachter began working at his family winery in 2008 when he was just twenty years old. He took over full responsibility in 2010, and now farms sixteen hectares of vineyards in Südburgenland, in the towns of Eisenberg and Deutsch Schützen. His credo, "Wine is the most interesting, natural and authentic when you recognize its origin. After that, all of our efforts are aligned - and so our grapes grow as close to nature and with as little outside influence as possible. The character comes entirely from the soils of Deutsch-Schützen and Eisenberg.
