THE STORY

At NEWBLOOD we know that no progress was ever made by doing things the same way they've always been done; and that if you can see a way to make something better, you owe it to yourself and those around you, to do just that.

That's why NEWBLOOD was created. With a combined experience of over 50 years, our team brings together traditional winemaking techniques with cutting-edge triple distillation to redefine what's possible, to forge a new path in winemaking craft for the industry. One that delivers an authentic, flavorful and aromatic wine – with the alcohol removed.
