THE STORY

Serendipity is elated to welcome one of the Petite Montagne's most rapidly rising star growers, Champagne

Lacourte-Godbillon, to our bubbles portfolio. In 2006, Géraldine

Lacourte and her husband Richard Desvignes left their fast

paced sales jobs in Lyon behind to revitalize Géraldine's family

domaine. One of the ever-growing number of Champenois

who choose to fully embrace biodynamic viticulture, the pair

are particularly committed to improving the biodiversity of their

soils. In recent years, the premier cru of Écuïel has endured

some of Champagne's most disruptive spring frosts, and yet it

has also produced some of Champagne's most eerily talented

young winemakers.
