THE STORY

The history of Manzanos Wines is the story of a family, their effort, their perseverance and their know-how. The Fernández de Manzanos have been cultivating vineyards and producing wines for more than a century. Nowadays, the public faces of

Bodegas Manzanos are those of the brothers Víctor, and David Fernández de Manzanos, as well as Laura Mateo, wife of the former. In 2010, these young entrepreneurs took the reins of the winery to turn Manzanos Wines into a prosperous business, modern and endowed with the latest technologies in the field. A business that has managed to preserve the old flavour of tradition and the received legacy.
